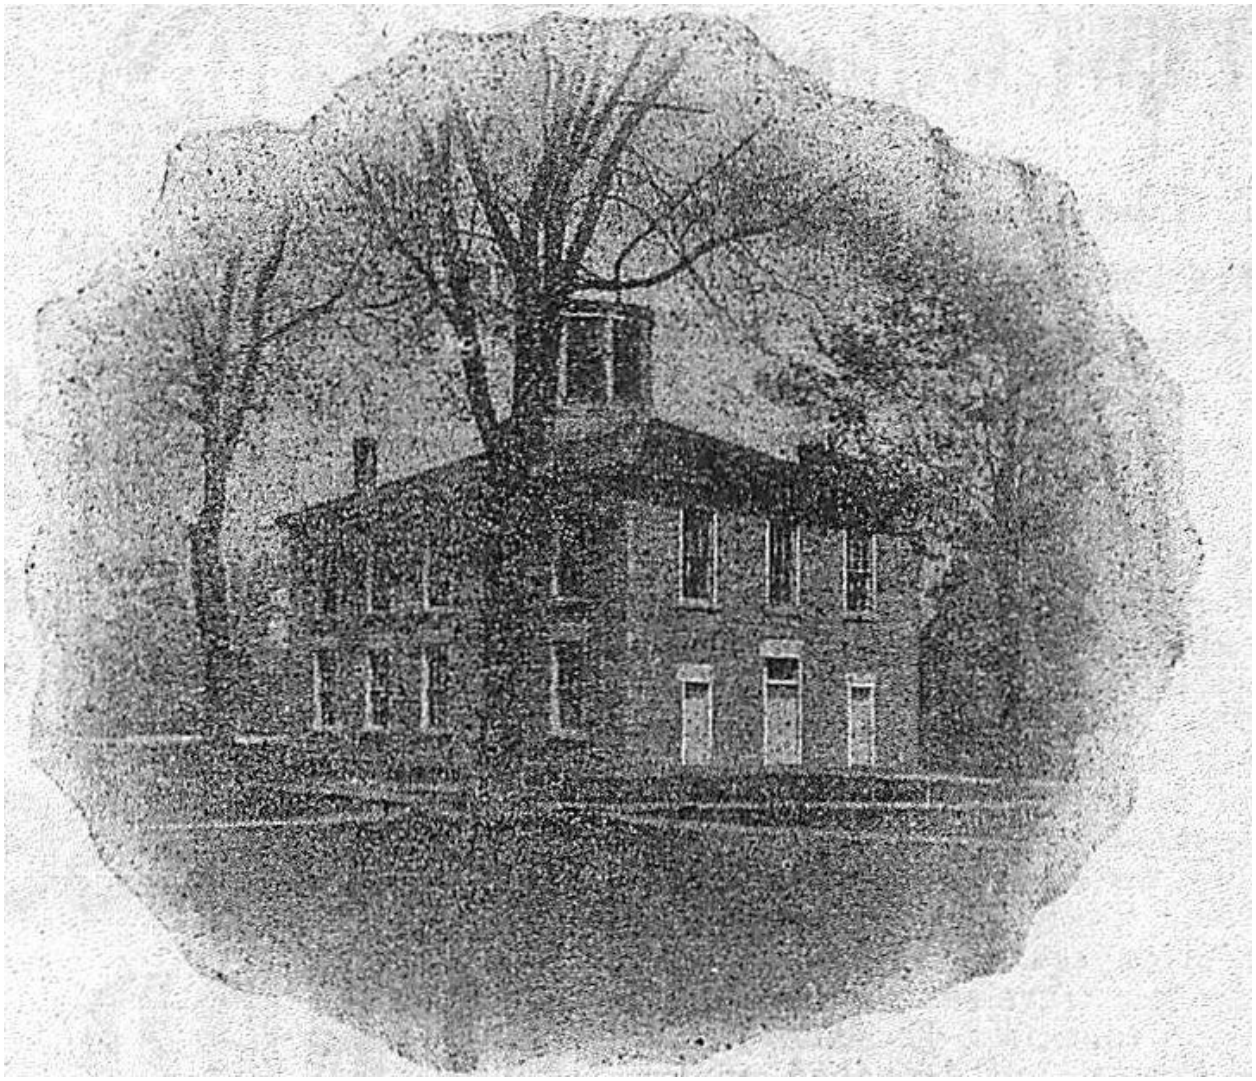
Stone School: De Pere's 1st High School - 1857.

This was located somewhere near the intersection of James and Wisconsin Streets.

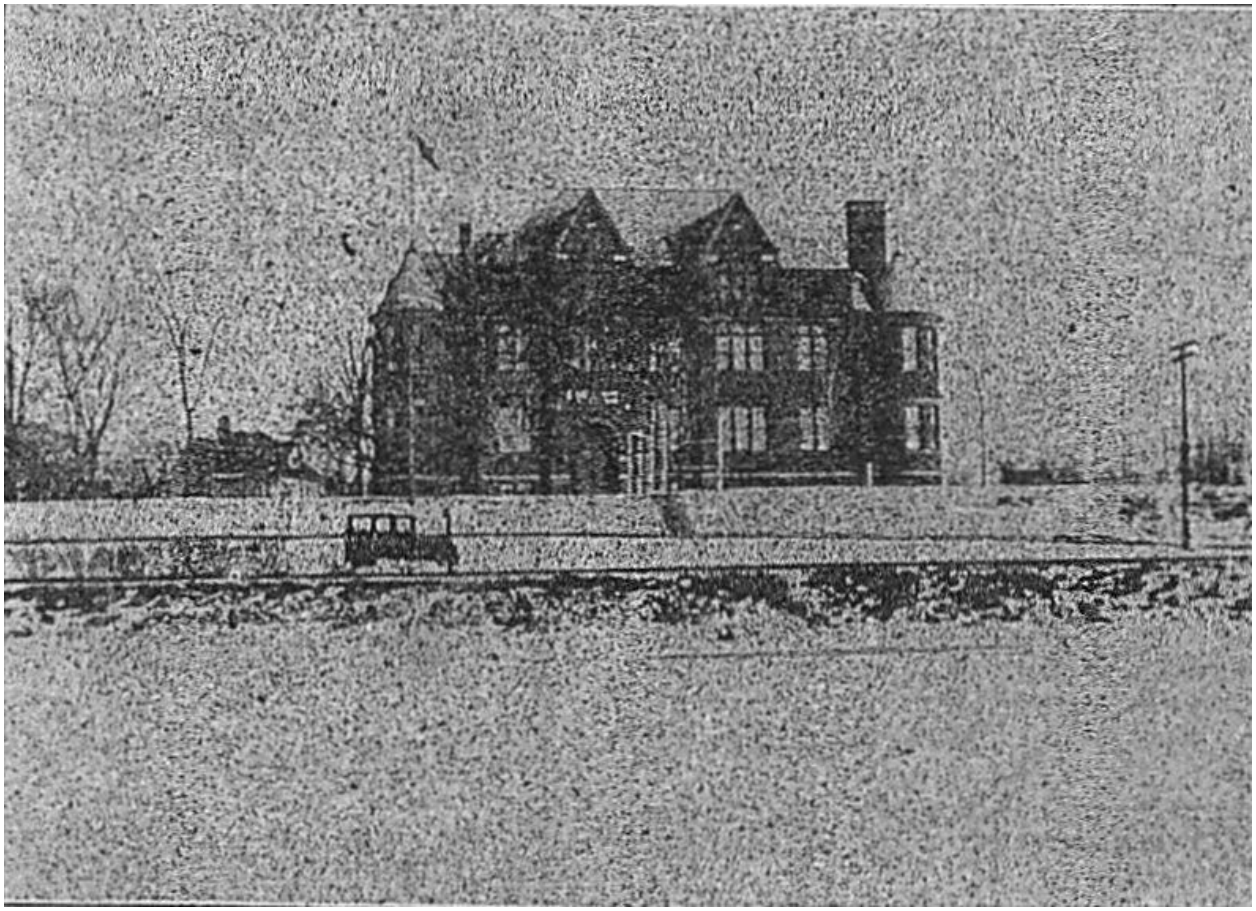
The prior log school building they were using was outdated. It served students in all grades till 1870, when a seperate grade school was built. On February 2, 1900, a stove pipe going through the second floor started the school on fire. The German Benevolent Society Hall was used as a temporary school until a new high school was ready.

First High School In City



Here is De Pere's first high school. It stood on the land now known as the Flag Park in the first ward

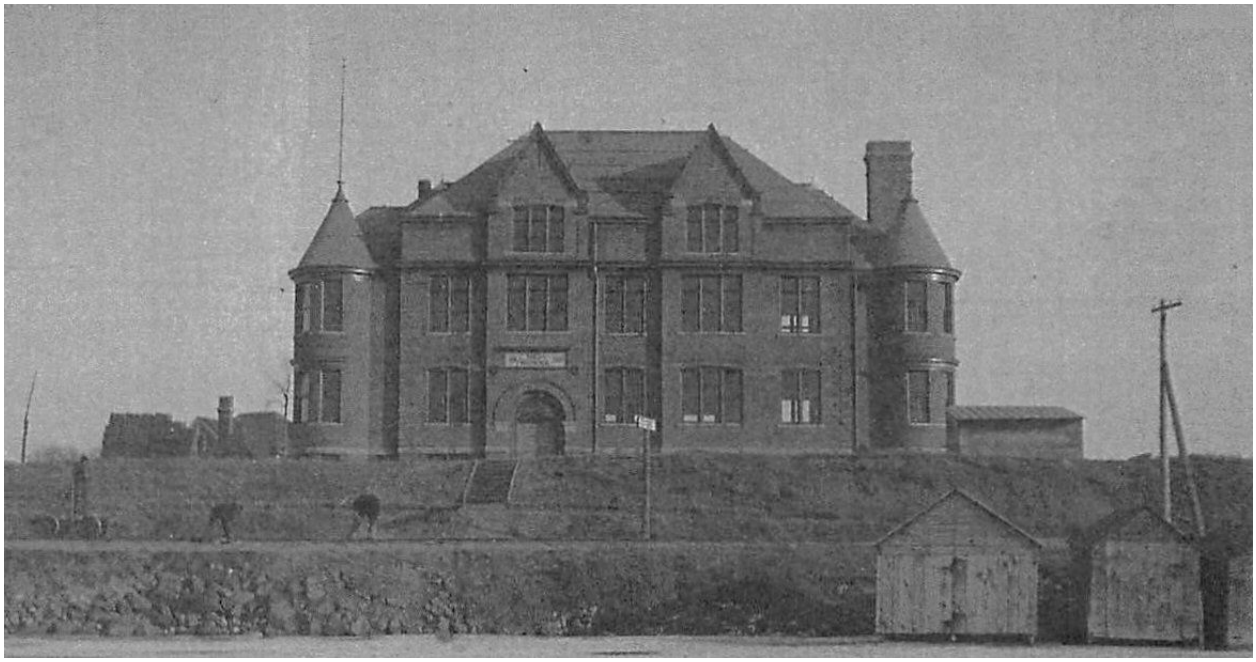
This Was Replaced by New Addition

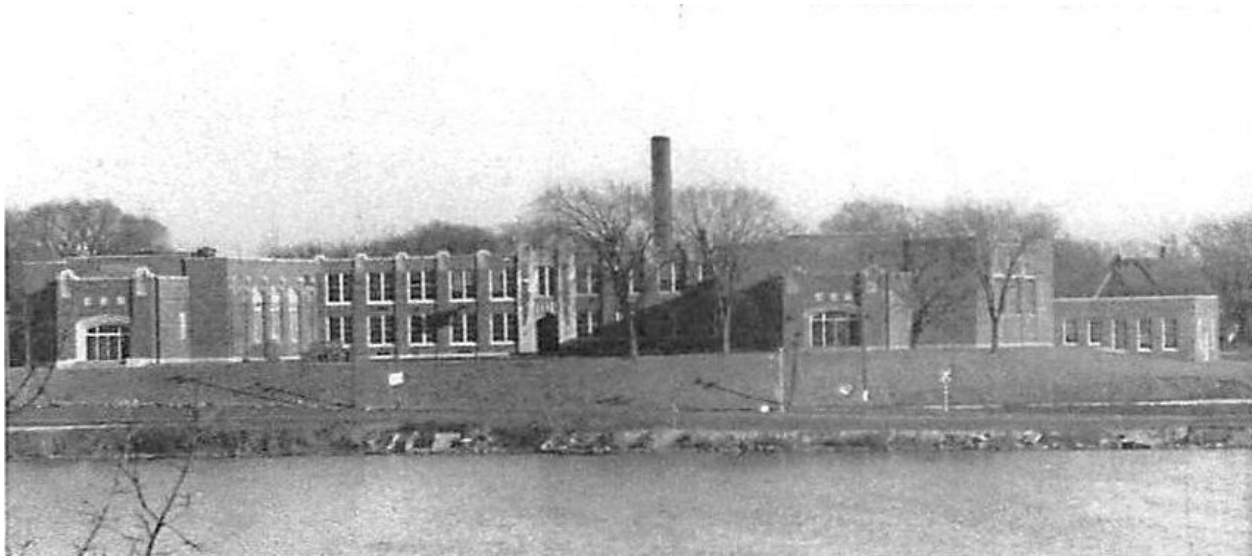


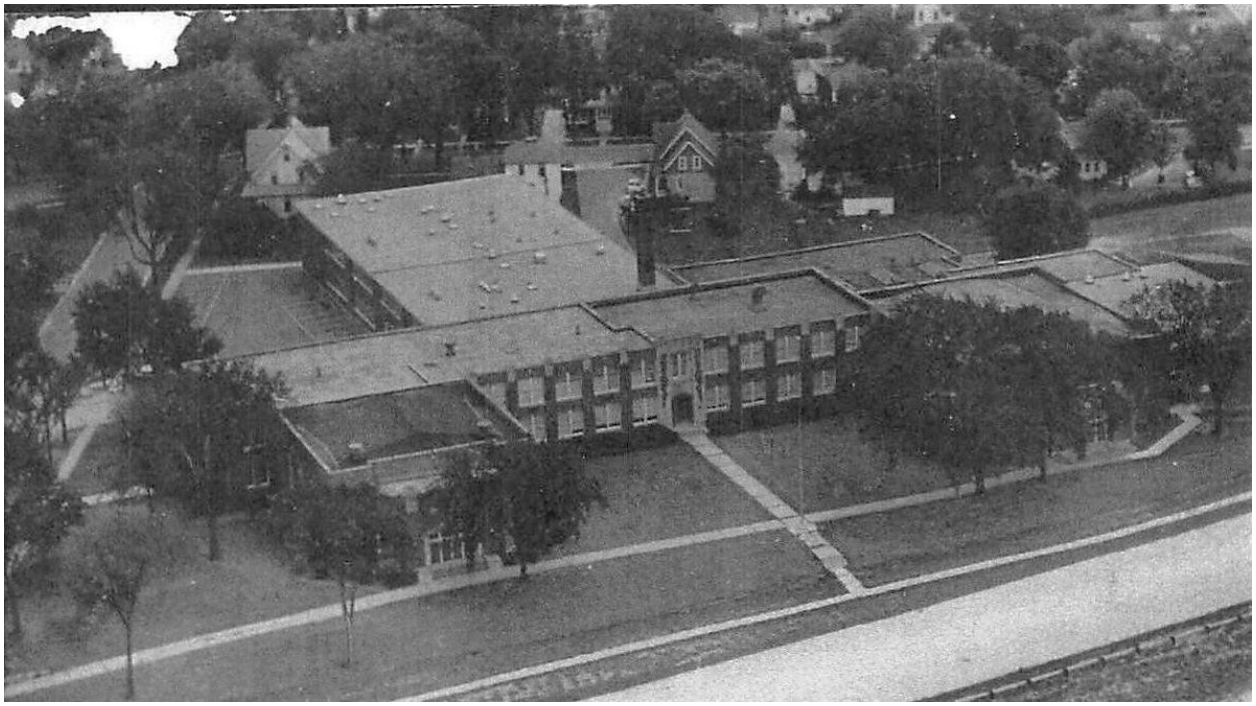
This building was torn down to make way for the ultra-modern addition now in use. The house to the left was moved away to make room for the new school.

Castle in the Hill School 1899-1939

De Pere's 2nd High School, located at the corner of Merrill Street and South Broadway.







De Pere's 3rd High School used from 1940-1978.
The building was then used as a middle school from 1978-1997
